Re: Carpet Recycling Program Suspended Immediately
Date: September 23, 2015

Please be advised that the Carpet Recycling Program at the Burlington County Resource Recovery Complex is suspended immediately. Our carpet recycling market has stopped accepting carpet, due to a global over supply of this commodity. Any loads of carpet brought to the facility as of October 1, 2015 will be landfilled. Customers delivering carpet to the complex will be charged \$92.80 per ton.
