

ATTENTION RESIDENTS OF TABERNACLE:

Please review the information below regarding inspecting loads of waste for recyclable material.

Recycling has been the law since 1987 and hopefully, you the residents are following the proper recycling procedures.

Please be advised that the County has instituted a new procedure that must be implemented as a condition of their NJDEP landfill operations permit. All loads of incoming waste will be inspected for recyclables. If the waste hauler delivers a load of waste that contains more than 10% of recyclables by volume, they will receive a copy of an inspection report. The respective municipalities will also receive a copy. The waste haulers can face fines for collecting trash clearly mixed with recyclables. The landfill operations will be looking for loads with a larger percentage of cardboard, computers, cans, bottles and paper, etc. so please help us by recycling.

In the event that your trash bundles contain recyclable materials, the trash hauler may reject the collection.

Please check your recycling schedule for a list of items that should be placed in the appropriate recycling containers that have been provided to each household in Tabernacle. Items to be recycled include the following:

- **ALUMINUM CANS or STEEL (TIN) CANS** - (CURBSIDE PICKUP OR TOWNSHIP DROP OFF)
- **ANTIFREEZE** - (HAZARDOUS WASTE COLLECTION DAYS)
- **CARDBOARD and PAPER** - (CURBSIDE PICKUP OR TOWNSHIP DROP OFF)
